One week ago class 7 went on a photo mission. They went by train to the Old town and there they got a mission to take three pictures by using three different themes. The themes were love, dream and loneliness. It took 45 minutes to finish and they thought it was hard and wanted to have easier themes but they still thought it was kind of fun. They saw lots of different objects, for ex. Statues, old buildings and the castle. They learned a little about what soldiers do and about the statue St.Göran and the dragon. The purpose of this mission was to learn how to edit pictures.

Our visit to the Opera house!

Students from second grade up to 9th grade went to the opera house.

The students have visited the opera house, there was a guide who told them about the opera. First they went to a big room which is called the Goldenroom and it was painted with a special gold colour but it isn't real gold. In the roof of the room there is paintings made by Richard Wages. Sometimes they rent the room to people who want to have their weddings there or for a special day and it costs 10 000 sek/h .

After that they went in to the opera where they do the shows and sat there to watch them about half an hour but the show is three hours long. The name of the show is Parsifal. After the show the guide showed us the ballet dresses and the shoes, they are special from England because it is cheaper there . In the past people had long ballet dresses because women couldn't have short dresses because they were not allowed to show their legs. It was good for men because they also had to wear the ballet dresses. Now the women are allowed to have short dresses because the women have rights nowadays That was all from our visit to the opera house!
